

30th Sep 2023 Saturday – First round of DASy Contest

(Webinar 09:30 – 12:30HR)

5th Oct 2023 Thursday-3 Master classes and one Hands-on practice station

(13:30 – 17:00HR)

Hands-on practice of tunneled CVC insertion (Practice insertion of tunneled CVC under USG guidance over manikin)

Faculty: Akira Miyata, Boonying Siribumrungwong, Withoon Ungriphaiboon

Master Class in **USG guided HD access intervention**

Chair: Lu Mingxi, Masaaki Murakami

Panel: Kazuhiro Sato, Zhan Shen, Kotaro Suemitsu

Lu Mingxi	Welcome and introduction
Zhan Shen	Guidewire and catheter selection for USG guided HD access intervention
Kazuhiro Sato	Step by step demo of USG guided dysfunctional HD access intervention (with recorded videos)
Kotaro Suemitsu	Access pathology assessed by USG and their behaviour and response to treatment
Zhan Shen	Treatment of access CTO
Lu Mingxi	USG guided Stenting of access lesion - how to do it accurate and safe
3:00-3:30	<i>Tea Break</i>
Kazuhiro Sato	USG guided salvage of thrombosed HD access
Lu Mingxi	Case discussion (recorded case)
Lu Mingxi	Selection and usage of biopsy forceps for residual thrombus
Masaaki Murakami	Complications and pitfalls of USG guided access intervention
	Overall discussion
Masaaki Murakami	Closing remarks

Master Class in **Salvage of thrombosed HD access**

Chair: Justin Kwan, Darryl Lim, Ng Jun Jie

Panel: Keerati Hongsakul, Lew Peishi, Skyi Pang, Yue Jianing

Justin Kwan, Darryl Lim, Ng Jun Jie	Welcome and introduction
Skyi Pang	Clinical and ultrasound assessment of thrombosed AV access
Yue Jianing	Selecting the best strategy in thrombosed AV access salvage – open or endovascular?
Keerati Hongsakul	Managing complications in thrombosed AV access salvage
Justin Kwan	Salvage end-point assessment
Ng Jun Jie	Postoperative management of thrombosed AV access
All	Overall discussion
3:00-3:30	Tea break
Justin Kwan	Recorded case – Percutaneous thrombolysis/catheter directed thrombolysis of thrombosed AV access
Lew Peishi	Recorded case – Percutaneous rheolytic/mechanical thrombectomy of thrombosed AV access
Ng Jun jie	Recorded case – Open surgical thrombectomy of thrombosed AV access
Justin Kwan, Darryl Lim, Ng Jun Jie	Discussion and summary of learning points

Master Class in Endo AVF

Chair: Robert Shahverdyan, Tan Chieh Suai

Panel: Edward Choke, Chong Tze Tec, Jackie Ho, Rahul Lohan, Pang Suh Chien, Tay Kiang Hiong

Tan Chieh Suai, Robert Shahverdyan	Welcome and introduction
Rahul Lohan	Current options of Endo AVF devices
Edward Choke	Good case of WavelinQ Endo AVF creation – ulnar artery and ulnar vein
Tay Kiang Hiong	Good case of WavelinQ Endo AVF creation – radial artery and radial vein
Chong Tze Tec	Good case of Ellipsys Endo AVF creation
All faculty	Discussion
Robert Shahverdyan	How to screen patient for suitability of Endo AVF creation
Robert Shahverdyan / Jackie Ho	Live screening of upper limb vessels
14:52-15:30	Tea break
Tay Hsien Tsung Luke	Endo AVF maturation assessment and maturation assist procedure
Pang Suh Chien	Facilitate cannulation for Endo AVFs
All faculty	Discussion
Tay Kiang Hiong	Challenging conditions in Endo AVF – intra-op
Rahul Lohan	Challenging conditions in Endo AVF – post maturation
All faculty	Discussion
Tan Chieh Suai	Pearls of case selection to maximize Endo AVF success
Jackie Ho	Building the EndoAVF service
All faculty	Discussion – Pearls and advice on successful EndoAVF
	Hands-on practice of Mantice EndoAVF procedure
